

LUCA BUONOCORE

Associate Product Manager | AI x Product

Mantua, Italy (open to relocation) | +39 345 960 3238 | lucabuonocore.03@gmail.com | [linkedin.com/in/lucabuonocore](https://www.linkedin.com/in/lucabuonocore) | lucabuonocore.github.io | EU Citizen (no visa sponsorship required)

PROFESSIONAL SUMMARY

Aspiring Product Manager with **1.5+ years** of hands-on 0→1 experience shipping an MVP that secured **€100K in conditional funding**, backed by a Computer Science foundation and formal training in Agile delivery, requirements engineering, and AI product management (Microsoft, PMI). Skilled at turning user research (**850+ survey respondents, 33+ interviews**) into prioritized roadmaps.

CORE COMPETENCIES

Product & Discovery: Product Discovery & Roadmapping, User Research & Market Analysis, Requirements & Specifications, Agile / Scrum, A/B Testing, Prioritization, Stakeholder Management, Data-Driven Decision Making

Data & Certifications: SQL, Google Analytics, Excel/Office Suite, Python — Generative AI for PM (PMI), Practical AI for PM (PMI), Microsoft AI Product Management Certificate, CAPM (exam pending)

EXPERIENCE

AI in Product Management — Research | University of Trento Dec 2025 – Present

- Conducted a **250-hour research internship** on how AI closes the automation gap in product management, grounded in **60+ academic papers** and **8 structured interviews** with PMs at Amazon, Microsoft, FBK, Salesforce, SumUp, Yahoo!, and Workday.
- Mapped where AI creates measurable value across 5 core PM domains and designed a multi-agent prototype for project-risk analysis, validated directly with the PMs interviewed.

Program Manager Intern | APSS (Provincial Healthcare Services Agency) Apr 2025 – Aug 2025

- Coordinated a multi-vendor IT infrastructure renewal across **17 healthcare facilities**, tracking budget, dependencies, and supplier delivery.
- Built Gantt charts and ran critical-path analysis for timeline and risk management, with weekly stakeholder status reporting.
- Recognized that static Gantt tracking couldn't absorb continuous priority and supplier shifts; advocated for and introduced Agile ceremonies, raising the program's security-compliance standards.

Co-Founder & Head of Product | Groove (Discovery Platform Verticalized on Venues) Feb 2024 – Feb 2025

- Led a **9-person cross-functional team** (engineering, design, marketing) from concept to a shipped MVP pitched to investors, securing **€100K in conditional funding**.
- Ran a Wizard-of-Oz usability test with 15 users, manually curating recommendations ahead of the AI engine — cutting event-discovery time from **30 min to 5 min (–80%)** for **72% of surveyed users**.
- Synthesized **500+ survey responses** into a prioritized roadmap and personas, using competitive analysis to position Groove as a discovery platform verticalized on venues.

PROJECTS

Product Discovery Lead | SkillForge (Esports Coaching Platform) Dec 2023 – Feb 2024

- Identified a market gap in esports coaching (€150–250/hr) through **350 survey respondents and 25 interviews**, surfacing accessibility constraints for **64% of users** and expanding the addressable market **4x**.
- Designed the business model around retired (vs. active) pro players, raising estimated content margins **20%**.
- Halted development after a cost-benefit analysis showed unfavorable unit economics — prioritizing resource efficiency over sunk-cost momentum.

FitGYM44 — Fitness SaaS (University Software Engineering Project) 2023 – 2024

- Led a 3-person Agile team across 5 sequential deliverables, authoring **30+ functional requirements**, user stories, and test scenarios.
- Authored a full UML/OCL technical specification for a 9-module system architecture (**135+ pages**).

EDUCATION

B.Sc. Computer Science (Engineering) | University of Trento Sep 2022 – Sep 2026 (Expected)

- Relevant coursework: Information Systems, Software Engineering, Computer Networks, Machine Learning.

SKILLS & TOOLS

Tools: Figma, Jira, Notion, Trello, Microsoft Project, Google Analytics, Office Suite

AI & Technical: Python, SQL, ML fundamentals, prompt engineering, ChatGPT, GitHub Copilot, React, Java, JavaScript, HTML/CSS

Languages: Italian (Native) · English (C1) · French (A2)
